Dynamic Drum Microphone

Thank you for choosing the MXL A-55 KICKER Bass Drum microphone. With proper care, this mic will provide many years of satisfaction. To get the best results, please take a few moments to read this manual.

Enjoy your microphone!

The MXL Team

General Characteristics

The MXL A-55 KICKER is a heavy duty dynamic microphone tuned specifically for kick drums and other low frequency applications such as bass guitar amps. The A-55 KICKER utilizes a cardioid pickup pattern to pinpoint the best sound while minimizing bleed from the rest of the drum kit.

Contents

Unpack your MXL A-55 KICKER microphone carefully and verify that all of the following items are included:

- MXL A-55 KICKER microphone
- Microfiber cleaning cloth

If any of these items are missing or damaged, contact the company from which you purchased the microphone.

Microphone Cable

The microphone cable can have a profound effect on the sound of any microphone. Even the finest microphone will sound poor if the interconnect cable allows noise to enter or causes distortion and loss of information. We recommend that you use the best microphone cable that your budget will allow.

Care

Dust and foreign material can reduce the performance of a microphone over time, so you should store the MXL A-55 KICKER in its box when not in use.

How to Use

Correct placement of you A-55 KICKER will be critical. We recommend you try different positions to find the best sound. We also recommend placing the A-55 KICKER close to your kick drum and pointing the head (capsule) directly at the sound hole.

Specifications
